

e-Learning Solutions for Healthcare

Product	Rapid Course Development Kit™	
Description	<p>Create interactive, menu driven e-Learning programs using Microsoft® PowerPoint® & Publish standardized Policies, Procedures and Bulletins using Microsoft® Word.</p>	<p>A FLASH-based, menu-driven, interactive e-Learning program developed in PowerPoint and seamlessly delivered with testing, tracking, and certification using the Knowledge Tracking System – <i>Professional™</i>.</p>
Overview	<p>The Knowledge-Forge™ Rapid Course Development Kit™ gives you the tools to quickly and easily produce interactive e-Learning courseware as well as policy, procedure and other electronic documents using programs you already know how to use. The kit works with Microsoft® PowerPoint® and WORD® to produce electronic documents optimized for electronic distribution that do not require PowerPoint or WORD to be viewed and can not be edited by viewers.</p> <p>Use supplied templates to create engaging, and highly effective e-Learning programs on subjects of your choice. Convert your existing library of PowerPoint presentations, WORD files, and policy documents into, menu-driven, standalone e-Learning programs that can be delivered across your organization or around the world via the Internet.</p> <p>What the kit includes:</p> <ul style="list-style-type: none"> • Templates for Microsoft PowerPoint that make it easy to produce professional looking, menu driven, interactive courseware complete with Table of Contents, Online Help and a Glossary • Templates for Microsoft Word to streamline and standardize the creation of Policy and Procedure documents, Bulletins and more • PowerConverter - an easy to use software program that converts your PowerPoint programs into standalone FLASH™ files that will run on virtually any computer in the world without the need for PowerPoint. The conversion process preserves all embedded media, hyperlinks and notes and produces files compact files that are optimized for electronic distribution and not subject to the security issues like many other file formats. • PDF995 - an easy to use program that converts your WORD files to Adobe® PDF compatible documents that can be read using the free Adobe® Acrobat Reader®. • e-Learning instructional modules, developed using the Rapid Course Development Kit, to show you how to use the tools to author and create your own e-Learning programs. <p>You do not have to be an e-Learning expert or multimedia programmer to use this kit. The templates and step-by-step instructional programs make it quick and easy to get up to speed. All courseware and electronic documents produced using the kit are ready to use in the Knowledge Tracking System–<i>Professional™</i>. There you can add online testing and certificates and assign, notify, deploy, and track the results for your entire organization.</p>	
System Requirements	<p>Windows PCs: Running Microsoft Windows 98, 2000 or XP with Microsoft WORD (W95 – 2003) and Microsoft PowerPoint (XP/2002/20003)</p> <p>For more information visit: www.knowledge-forge.com</p>

PowerCONVERTER for PowerPoint (by PRESENTATIONPRO)
No Special Viewer Needed - Flash presentations are universally viewable in any Internet browser. Your audience doesn't even need PowerPoint to view it, and they won't have to look for any special plug-in or viewers like with other converters.
Reduced File Size - No more struggling to download huge PowerPoint files! PowerCONVERTER reduces your PowerPoint file size up to 97% by converting it into the universal Flash format! Then you can post it to your website or intranet site for fast, easy access.
Easy One-Click Professional Quality - Professional quality Flash means it looks like the pros did it. One-click means you don't have to outsource, manage or hire additional staff. You can do this yourself! Save time, money and hassle.
Accurate Conversion - PowerCONVERTER fully supports all XP's coolest animations, transitions and effects. It is by far the most accurate converter on the market!
<ul style="list-style-type: none"> • Preserves all PowerPoint animations and transitions • Preserves all embedded hyperlinks • Accurately converts embedded videos and plays them better than PowerPoint • Maintains attached audio files and voiceovers
Secure Format - Flash presentations can't be altered or copied so your message, branding and intellectual property are protected. Plus, they're secure from viruses.
Streaming Technology - HTML and PowerPoint are slow to load. Viewers can click through Flash presentations in real time, without experiencing long load- or lag-time between slides.
Creates Compelling Multimedia - Multimedia features improve the impact of your messages up to 5 times! PowerCONVERTER lets you incorporate stunning PowerPoint multimedia features like audio, video and animations.
Saves Real Money, Instantly - Have you priced true multi-media Flash presentations lately? PowerCONVERTER gives you true multi-media with sound, voice-over, animation, graphic effects and transitions
